

STATEMENT BY MR. R V KANORIA, PRESIDENT, FICCI ON FINANCE MINISTER'S OBSERVATIONS

New Delhi, August 7, 2012: Mr. R V Kanoria, President, FICCI has said *“FICCI would like to work with the government in its endeavor to revive the economy and put India back on a high growth path. We have developed a detailed 12 point agenda that touches upon some of the areas mentioned both by the Finance Minister and earlier by the Prime Minister. The Finance Minister’s statement yesterday reflects his comprehensive understanding of the immediate concerns that have to be addressed to put the economy back on track and we are enthused by these views. It is quite obvious that he means business and has immediately put himself in the task of re-igniting the growth triggers of the economy. There is a sense of urgency that we could see in the Finance Minister’s address and FICCI would like to lend its complete support in achieving the goals the that have been set by the Finance Minister.”*
