Why This Summit Now

To Address the Threats:

- India has one of the highest motorization rates in the world, 95% of vehicles registered are private
- The rapid growth of motorized vehicles is causing serious health and environmental impact
- Indian cities are subject to growing urban sprawl

To Take Advantage of the Opportunities:

- 600 million people will be living in Indian cities and towns by 2031
- By 2030, Indian cities and towns will contribute 70% to the total GDP of the country
- Investments needed for urban transport in the 12th five year plan are estimated at over \$77 billion, of which private sector is expected to contribute nearly 35%

The Organiser

Established in 1927, FICCI is the largest and oldest apex business organisation in India. Its history is closely interwoven with India's struggle for independence, its industrialization, and its emergence as one of the most rapidly growing global economies. FICCI has contributed to this historical process by encouraging debate, articulating the private sector's views and influencing policy. A non-government, not-for-profit organisation, FICCI is the voice of India's business and industry. FICCI draws its membership from the corporate sector, both private and public, including SMEs and MNCs; and directly and indirectly speaks for over 2,50,000 companies. FICCI provides a platform for sector specific consensus building and networking and as the first port of call for Indian industry and the international business community.
