INR 5,000+ 14.5% Service taxes
for each participant

VENUE:

The Chancery Pavilion, Bengaluru

India is in pursuit of membership of the four multilateral export control regimes- NSG, MTCR, Australia Group and Wassenaar Arrangement. **But what does that mean for the Indian Industry and Multi/Transnational companies operating in India?**

FICCI, Ministry of External Affairs (MEA), DGFT along with representatives of other Indian Government agencies, International Policy makers and representatives of high-tech companies will discuss the recent updates to SCOMET and the road ahead towards regime membership.

This is the first major national outreach event for India to further discuss and exchange ideas about export control issues/ strategic trade controls.

Speakers

Policy Makers, Foreign Government Officials and Domain Experts from India, Germany, Japan and United States

Plenary Sessions- Themes

- SCOMET Regulations: Current Policy & Procedures
- The Road towards Multilateral Export Control Regimes & what it means for Indian Industry
- Internal Compliance Plans (ICPs)
- Enforcement of Strategic Trade Controls

Breakout Sessions - Themes

- International Panel Update (Germany, Japan and United States)
- SCOMET: Controls impacting Biotech & Chemical Industry
- Technology Controls (technical data and technology transfers)
- SCOMET: Aerospace & Defence
- SCOMET: Controls impacting Civil Nuclear industry (dual-use)
- Military: Specially Designed Definition on U.S. Export Control Reform
- Strategic Trade Controls and a Secure Supply Chain (TBC)

Networking Sessions

- Informal Networking Sessions and Reception with Key Speakers, Government Officials and Industry representatives
