

2nd Rajasthan Skills Summit

SKILLS FOR INDUSTRY 4.0

17 January 2020 : Jaipur

2nd Rajasthan Skills Summit

SKILLS FOR INDUSTRY 4.0

17 January 2020 : Jaipur

India has emerged as the fastest growing major economy and is expected to be the Skill Capital of the world over the next 2 to 5 years, backed by its young workforce. By 2020, the average age in India will be 29 years with 65% of the population in the working age group (15-59 years of age). Most of the developed countries experiencing an aging population, India's burgeoning young workforce can be an asset not just for the country but for the rest of the world as well.

Parallely, the Fourth Industrial Revolution demands a workforce with a new set of core skills to creatively tackle complex and unforeseen challenges. The present and future workforce has to have skills that will help them to adapt new technologies quickly and apply them on job. This calls for Cognitive Skills, Design Thinking, Complex Problem Solving skills that calls for need to move away from rote learning to problem solving and more practical-based and application oriented learning.

We are struggling with triple challenge of making vocational training aspirational, generating employment opportunities for young entrants in the workforce year on year as well as remain globally competitive through improved productivity and efficiency. Therefore, the solution underlines by interweaving the Government, Academia and Industry efforts to achieve overall goal.

Rajasthan is the first state in India to establish a mission for livelihoods, in September 2004, in order to address the challenges of unemployment and ensuring gainful and sustainable employment by formulating appropriate and innovative strategies for the poor and vulnerable people. Subsequently, formation of RSLDC and establishment of two Skill Universities point towards maturity of our collective efforts to transform the skilling landscape of Rajasthan.

Against this backdrop, FICCI Rajasthan State Council is organising the 2nd edition of Rajasthan Skills Summit on 17 January 2020 at Hotel Holiday Inn, Near Nehru Sahkar Bhawan, C Scheme, Jaipur. The 2nd edition of Rajasthan Skills Summit's theme 'Skills for Industry 4.0' would focus on New Age Skills; Skilling, Re-skilling & Upskilling; Apprenticeship & Productivity; Integration of Skill Education with Skills; Blue Colour Entrepreneurship, etc.
