

Decode BRSR Framework & Get Compliance Ready

Online Training Program on BRSR

SEBI's Business Responsibility and Sustainability Report (BRSR) which is now applicable to top 1000 listed companies for disclosing ESG related information in India would also serve as a base document for various stakeholders, especially investors, to bring about comparability amongst companies.

BRSR is a more comprehensive disclosure framework as compared to the Business Responsibility Report (BRR) which was applicable uptill now. BRSR is questionnaire based requiring quantitative and qualitative data. Disclosures on climate and social (employees, consumers and communities) related issues of the entity have been significantly enhanced and made more granular.

As compliance is mandatory for the top 1000 listed companies, FICCI is organising a detailed online training program on BRSR spread over 3 sessions.
