7TH EDITION

Digital Rajasthan

Conclave

Embracing Technologies, Transforming Lives

13th January 2023: Hotel Clarks Amer, Jaipur

Digital India is a flagship programme of the Government of India with a vision to transform India into a digitally empowered society and knowledge economy. Over last few years, the IT ecosystem in the country has expanded manifold and we are now witnessing the widespread penetration of the ICT network from the centre to the state and district levels. This has made the last-mile delivery of services a reality.

India has established itself as global software services leader by leveraging the proactive government policies to boost software exports backed with comparative advantage of enabling infrastructure, cost arbitrage and availability of rich talent pool. Emerging technologies such as Blockchain, Artificial intelligence (AI), Internet of things (IoT), Cloud computing, 5G, Metaverse, Machine Learning, Augmented Reality, Virtual Reality, Robotics, etc offer extensive possibilities for businesses, governments and citizens.

Another key element that has been revolutionising our nation's growth is the start-up boom. Digital Start-ups in diverse sectors are examples of how the citizens of this country have embraced the essence of entrepreneurship and shown an appetite to accept change and disruption in the existing models of services.

Against this backdrop, Federation of Indian Chambers of Commerce and Industry (FICCI) is organising the 7th edition of Digital Rajasthan Conclave on 13th January 2023 at Hotel Clarks Amer, JLN Marg, Jaipur. The programme aims at deliberating upon latest trends and technologies, related challenges and how Rajasthan can leverage the presence of robust IT industry, skilled manpower and enabling policies to drive investments, create employment, promote entrepreneurship and improve efficacy of service delivery.

THE AGENDA

One day Conference for Deliberations, Networking and Addressing Latest Trends of Digital, IT & ITeS ecosystem: Sustainability in the context of Industry 4.0, Modern technologies in smart buildings, The Vernacularisation of India's Internet, Innovations in Artificial Intelligence across industries, Manufacturing Performance Improvement, Data transformation, Application of Analytics, Cloud – Ushering the Next Wave of Growth in India, Shaping Next-Gen Products – AI & ML Trends, Emerging Cyber Threats , Data Privacy, Data Theft and Data Manipulation, Introduction of 5G, Metaverse, Deep Learning in Cyber Security, Combating Threats through New Age Technology, Next Generation Banking Vis-à-vis Banking Frauds, etc.

5th Startup Conclave: CIIE.CO will be coordinating the 5th Startup Conclave which will provide exposure towards digital technologies used by the startups in solving the real time problems. The platform will help students to explore entrepreneurship as a career and help them understand the various steps involved in executing and idea and creating a business around it. The conclave also looks forwards to create a synergy between the stakeholders of established business organizations, industry experts and startup world through following activities:

- The Demo Day will provide the opportunity to select startups to showcase & pitch before a mix of local angel investors, industry members and other related stakeholders
- Panel Discussion on How can Startups Navigate through Investment Downturn?

RETROSPECT

The six editions of the Digital Rajasthan Conclave were jointly organised by FICCI and STPI during 2016, 2017, 2018 and 2019, at Jaipur. The programme was held on virtual platform during 2020 and 2022. Eminent leaders from Government, Industry, Academia and other related stakeholders have participated at the previous editions of the programme.
